

Assume operational command of the fire department and take control of several fire stations to ensure the safety of the city! As Fire Commander, you must ensure that your rescue workers are able to cope with a range of different emergency situations. Sufficient support must be ensured for every type of fire. For example, what should the crews receive in the event of a chemical fire? Do all the procedures for dealing with fires of a certain size have to be executed in a certain order? Do you have enough water for a fire in a tunnel? Do you have the staff available and the right equipment to extinguish an electrical fire? In daily operations, you must also ensure sufficient staff for a fire or accident at a busy railway station. When the howl of sirens fills the streets of your city, the flashing blue lights reflect in the windows of the house fronts, and you hear the stamping of soot-blackened boots on the asphalt and the shouted command "Water on!", every man, woman and child knows: it's that time again – THE FIRE DEPARTMENT IS HERE to win the fight against the flames. But this time you'll get the opportunity to win on your own terms. If you have the will and the ability, you may become an "Everyday Hero."
