But what I get is a bigger border. But the question is why? It comes with forward-backwards div trick of backface-visibility used in the former. How would you approach this question? A: I would suggest looking into how the backface-visibility property works, as that is what is causing the stretched border. I made a jsFiddle to demonstrate this: Fiddle code is like this: HTML CSS .face { background-color: rgba(255, 0, 0,.5); height: 100px; width: 100px; margin: auto; border-radius: 50%; e79caf774b
